- Ready to use

## USAGE

Interior

## COVERAGE

500 ml

1-6 m<sup>2</sup>

## APPLICATION

Brush

## DRYING TIME

10-30 minutes

## TOOL CLEANING

Water

### Product use

Liberon Wood Bleacher is ideal for removing dark stains caused by rust, alcohol, damp, ink, ring marks and fruit etc. It can also be used to lighten naturally dark wood or natural wood which has darkened through alkali products, staining or weathering.

### Product application

Apply Liberon Wood Bleacher sparingly with a brush. Concentrate on badly affected areas if required. Allow to dry, check results and apply further coats if necessary. Rinse thoroughly with clean water 2-3 times and allow to dry completely before refinishing.

**Important:** Always test product on a spare or inconspicuous area for colour, compatibility and end result. Water-based products may be affected by Wood Bleacher residue.

### Precautions

- Wear protective gloves.
- Due to various types of pigmentation some dyes/stains/woods may resist bleaching.
- Wood Bleacher relies on chemical reactions – results cannot be guaranteed.

### Packaging

Wood Bleacher is available in 125 ml and 500 ml and 5 L containers.

### Health and Safety

Corrosive. Contains Oxalic Acid. Flammable. Harmful by inhalation, in contact with skin and if swallowed. Causes severe burns. Keep out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Do not empty into drains. Wear suitable protective clothing, gloves and eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). Use only in well-ventilated areas.

This product should be used in accordance with the manufacturer's instructions. Recommendations are for guidance only since conditions of use are completely beyond our control.
