

# WOCA Wood Cleaner

- for the basic cleaning of wood surfaces,  
irrespective of the basic finish

Preparing today for tomorrow

- For unfinished, oiled or soaped wood surfaces indoors
- Basic cleaning and grease removal
- High efficiency
- Certified by IBR

## Product info

Container: 1 and 2,5 litre

Consumption: 200-300 m<sup>2</sup>/litre  
depending on the surface

## Application area

Wood Cleaner is used for the basic cleaning of oiled surfaces indoors. Wood Cleaner is also suitable for the cleaning prior to the basic finishing with oil or soap, or prior to a lye treatment.

## Result

Wood Cleaner has a high grease removing effect and dissolves e.g. old soapfilm, grease and dirt, whereas oil is not affected.

## Application

Mix Wood Cleaner in a ratio 1:40 with water. Apply with mop, cloth or machine.

## After care

Soaped floors with Natural Soap. Oiled floors with Maintenance Oil or Maintenance Paste.

# How to do...

- WOCA Wood Cleaner: basic cleaning of wood surfaces, irrespective of the basic finish

Preparing today for tomorrow

## Tools

2 plastic buckets, mop, doodlebug, floor cloth or - the like.

Clean tools with water and soap.

**Wood Cleaner may be used for the cleaning of lye treated, soaped, oiled, waxed and lacquered surfaces. Furthermore, it is well suited for cleaning of unfinished wall- and ceiling panels, furniture etc. Removes grease, dirt and soap residues.**

- 1 125 ml Wood Cleaner is mixed into 5 l lukewarm water. Leave solution on surface to dissolve dirt if necessary.
- 2 Scrub with brush or pad manually or with floor machine if very dirty. Wipe clean with mop or cloth. Always wipe a second time to minimise the exposure to water of surface.
- 3 Repeat if floor is extremely dirty.

**Tip:** Always work with two buckets - one with Wood Cleaner mix with water and one with rinse clear water.
