
 www.rustins.co.uk	PRODUCT DATA SHEET
Product	Finish Reviver
Type	A mixture of fine abrasives dispersed in special water based lubricating medium.
Intended Use	Ideal for use on antique and old furniture where the original finish has lost its lustre or has fine scratches. Finish reviver will restore the gloss and remove all minor surface defects.
Special Features	Will not destroy attractive patina that has been acquired due to age.
Application	<p>Apply with heavy pressure to the surface, using a pure cotton cloth or stockinette pad. Apply more reviver until all surface marks have been removed and finish by rubbing with a clean cloth or duster.</p> <p>On open grained wood a fine deposit may be left in the grain after the Finish Reviver has dried. This can be removed by brushing the grain with a nail brush and water and drying with a clean cloth.</p>
Application Temp.	Ideally 10-25°C.
Compatibility	Not suitable for use on oiled or waxed surfaces.
Settlement	Shake container thoroughly before use.
Shelf-life/Storage	The shelf life of the product in an airtight container is indefinite. It is preferable to store the product in a cool place. It is important to replace the lid and ensure an airtight seal.
Hazards	<p>Irritant. May cause sensitisation by skin contact. Avoid contact with skin. Wear suitable gloves.</p> <p>A full Safety Data Sheet is available upon request.</p>
Sizes	250 ml
Note	This product will also remove water and heat marks unless they have penetrated through to the wood. If this has happened the only remedy is to remove the old finish completely with Strypit Paint & Varnish Stripper and re-finish.
