

Product information: Gard Clean

Description

Gard Clean is a highly effective cleaning concentrate especially developed for the easy removal of green growth (and similar natural pollution) from painted and unpainted wood surfaces – also on grooves and fissures. No scrubbing necessary. Gard Clean cleans thoroughly and self-acting. Just apply and the green growth will normally disappear automatically within 24 hours. Checks new growth.

Health and environment

Biologically degradable. The substances used comply with the demands of European standards regarding decomposition of detergents/surfactants. Gard Clean is not hazardous. It contains no formaldehyde, nor chlorine or phosphate. It has a low odour.

The principle of Osmo to manufacture and supply only products which are safe and environmentally friendly during production as well as for application resulted in the successful certification according to DIN EN ISO 9001:2000 (quality management) and DIN EN ISO 14001 (environmental management).

Die Fa. Osmo Holz und Color
ist zertifiziert nach DIN EN
ISO 9001:2000
(Qualitätsmanagement) sowie
nach DIN EN ISO 14001
(Umweltmanagement).

Uses

Gard Clean removes green growth and similar natural dirt on wooden surfaces externally. It is ideal for cleaning wooden or plastic garden furniture, screens, terrace decks, pergolas and other similar surfaces.

Equally suitable for stone (also gravestones), plastic (check colour stability), concrete, cement, roof tiles, stepping stones, sidewalk etc.

Colour shade

6606 clear

Coverage

1 l = 30-100 m² (depending on infestation)

Can sizes: 1 l; 5 l

Preparation

Avoid direct contact with plants (cover). Remove growth and loose dirt from the wood by sweeping. The surface must be dry before application.

Method of application

Use Gard Clean pure or mixed with water (up to 1:10 according to infestation). Apply it with brush, sprayer or pour it directly on the infested dry surface.

The green growth should disappear automatically within 24 hours. (if the surface is not

completely clean, repeat the application.)

Clean tools with water.

After washing with water and thorough drying, protect the refreshed wood with a coat of Osmo.

Recommendation:

For this purpose we recommend in accordance to the area of application and the desired colour shade.

Clear: Osmo Clear Oil Wood Finish or Osmo Color Teak-Oil (clear, no UV-protection)

Transparent: Osmo Bangkirai-Oil, Pine Oil, One Coat Only, Wood Stain and Protection or Osmo Fence And Garden Stain (transparent)

Opaque: Osmo Country Colour, Opaque Gloss Wood Stain

Storage

Can be stored up to 2 years or more if can is tightly closed. Keep away from frost and heat (5-35°C), also when in transit.

Ingredients

Water, cationic and non-ionic tensides and stabilizers.
