Earth Pigment

- Use to colour putty, paint, cement, plaster and grout etc.
- Made from natural earth from around the world
- Wide range of colours available
- All colours are intermixable

Product use

Earth Pigments do not dissolve but are held in suspension. Use to colour virtually anything with a thick or paste consistency (ie varnish, french polish, paint, glues, wood paste etc.)

Application

Mix into the finish until the required strength of colour is achieved. Intermediate shades can be obtained by mixing with other earth pigments.

Colours

Titanium White, Yellow Ochre, Red Ochre, Raw Sienna, Burnt Sienna, Raw Umber, Burnt Umber, Red Lead, Van Dyck Brown, Vegetable Black, Cassel Earth, Mexico Yellow and Brown Umber.

Earth Pigments are available in 100 ml containers.

Health and Safety

Keep out of the reach of children. Do not empty into drains.
